

# Irrigation Reminders...

*If you have an irrigation maintenance related problem (ie: broken head, sprinkler hitting a window, washout, broken drip line, etc.) please contact your Association's Irrigation POC and ask them to put a work order request into Upkeep.*

*If you are not sure who your irrigation POC is please contact your association President or another member of the association board for that important information.*

*If you are reporting an irrigation related emergency (flooding, geyser, etc.) please contact FirstService Residential's after-hours/emergency line at 813-642-8990.*

*If you are a new irrigation POC and need help getting set up in Upkeep or need help learning how to use Upkeep please email [master@kpmaster.com](mailto:master@kpmaster.com) to set up an appointment with the Master Administrative staff.*
